Skills

TECHNICAL SKILLS

- Languages :** C, C++, Java, PHP, Python, JavaScript
- Frontend :** HTML5, CSS3, React.js
- Database :** MongoDB, PostgreSQL
- Backend :** flask, Node.js(basics)
- Dev Tools :** Git, GitHub,

Professional Skills

Problem Solving
Team Work

Languages Known

- English
- Hindi
- Marathi

Summary

Aspiring Software Engineer with a strong foundation in Computer Science and a passion for developing efficient software solutions. Skilled in Java, Python, JavaScript, HTML, CSS, React.js, SQL, and Git. Familiar with Data Structures, Algorithms, DBMS and Object-Oriented Programming. Eager to learn new technologies, solve real-world problems and contribute to innovative software development.

ACADEMIC DETAILS

Course	Specialization	Institute/College	CGPA	Year
BSc Computer Science	Computer Science	Dr. DY Patil Arts, Commerce & Science College	9.36	2024-27
XII	Science	Malojiraje Vidyalaya and Jr. College Lonand	60.67	2024
X	-	Sou Venutai Chavan Highschool Taradgaon	85.80	2022

Projects

Personal Finance Manager

Personal <https://github.com/Vaibhav5564/Personal-Finance-Manager>

- Developed a full-stack web application to help users track income, expenses and overall financial transactions efficiently.
- Implemented secure user authentication, expense categorization, transaction management, and budget tracking using Flask, SQLAlchemy and SQLite/MySQL.
- Designed a responsive and user-friendly interface using HTML, CSS, JavaScript and Bootstrap to provide a smooth user experience.
- Built RESTful backend functionality with proper input validation and session management to ensure secure and reliable application performance.
- Integrated dashboards and reports to help users analyze spending patterns and make informed financial decisions.

textUtils - Manipulate Your Text

Personal <https://react-js-hi44.vercel.app>

- Developed a web application for performing common text manipulation operations such as case conversion, word and character counting, extra space removal and text formatting.
- Built a responsive and interactive user interface using React.js, providing real-time text processing and instant preview of changes.
- Applied reusable React components and state management to create a clean, efficient and maintainable application.
- Focused on delivering a simple, fast and user-friendly experience across different devices.

ACHIEVEMENTS

- Won 6 Coding Competitions throughout the B.Sc. Computer Science program, demonstrating strong programming, logical reasoning, and problem-solving skills.
- Achieved the highest academic performance in the Second Year of B.Sc. Computer Science with a 9.60 SGPA, demonstrating consistency, discipline and a strong commitment to academic excellence.

CERTIFICATIONS

Python Programming Masterclass - Udemy

- Completed comprehensive training in Python, covering programming fundamentals, object-oriented programming (OOP), functions, file handling and problem-solving.

React.js Training (30 Hours) - Dr. D. Y. Patil Arts, Commerce & Science College

- Completed hands-on training in React.js, covering components, props, state, hooks, routing and the development of responsive single-page web applications.
